Harwich Runners (HR) - Generic Risk Assessment.

- 1. This HR generic risk assessment is applicable to all Club Members, coaches, HR guests and occasional attendees.
- 2. All Club Runs and Training Sessions come with some element of risk. This document is designed for HR coaches as well as its Club Members to use, consider the various potential hazards or incidents which we might encounter when taking part in activities associated with our Club.
- 3. The document is designed to help make sure that we all consider the best ways of reducing these hazards and risks as much as possible to ensure the safety of everyone in the Club and to ensure we are doing all we can, to prevent potential incidents from occurring.
- 4. All members of HR Club and guests, run and take part in club activities at their own risk, this document is designed to help everyone to think about the ways in which we can avoid incidents and prevent accidents from occurring.
- 5. Where possible, training is to be published in advance on HR Club website, social media to allow runners to wear appropriate footwear and clothing.
- 6. The list is not exhaustive and will be constantly updated and reviewed regularly. Risks can never be completely removed but ways to reduce them should be documented and the control measures noted should be considered as much as possible by all involved. Please note that it is the responsibility of Coaches and Club Members to try to prevent an incident from occurring. As such, the various control measures below should always be noted and observed.
- 7. If you, as a Club Member think something should be added to the Risk Assessment or to the listed Control Measures please speak to a Coach.
- 8. Coaches are to be aware of the locations of the nearest AED to their training area. The <u>Staying Alive App</u> is worth downloading to your mobile phone. It shows all the locations local to your area and also has handy hints and training on CPR.
- 9. This Risk Assessment will be reviewed every 12 months from date of production and whenever there is an incident, accident or near miss.

Date produced: 12 December 2023, Date to be reviewed: 11 December 2024

Authorised by: Peter Gooding HR Chairman, Produced by: Kevin Fitchett HR Welfare Officer

- 5a. RISK: Running in hot weather
- 5b. LIKELIHOOD OF AN INCIDENT OCCURRING: Moderate to High
- 5c. CONSEQUENCES: Possible risks including, dehydration / sunburn / sunstroke
- 5d. CONTROL MEASURES TO PUT IN PLACE TO PREVENT AN INCIDENT FROM OCCURRING:

Coaches	Individuals
<ul> <li>Check Club Members have appropriate clothing</li> </ul>	Dress appropriately for the weather conditions
and footwear during pre-run briefing  ● Remind Club Members of the importance of	<ul> <li>Bring a water bottle and keep hydrated</li> <li>Wear sun protection</li> </ul>
keeping hydrated and drinking water	<ul> <li>Consider wearing a hat</li> <li>Drink plenty of water during the day so as you arrive hydrated, this is particularly important if you do not want to carry a water bottle while running</li> </ul>

- 6a. RISK: Running in cold weather including, snow and ice
- 6b. LIKELIHOOD OF AN INCIDENT OCCURRING: Moderate to High
- 6c. CONSEQUENCES: Possible risk of short-term injury, including slipping, frostbite, catching cold etc
- 6d. CONTROL MEASURES TO PUT IN PLACE TO PREVENT AN INCIDENT FROM OCCURRING:

## Individuals Coaches • Check Club Members have appropriate clothing • Dress appropriately for the weather conditions, and footwear during pre-run briefing warm clothing etc • When there is a possibility that terrain is affected • Wear a hat with a brim to keep rain or snow from by cold weather, such as snow and ice, a Team your face and also to prevent heat loss through Leader should attempt to check the route in your head advance of the commencement of the Club Run so • Be mindful that heat escapes through your hands and feet - therefore protect your hands and feet as to warn for potential hazards • If once checked, the route is deemed unsafe, from the cold by wearing gloves and wearing a then Team Leader to discuss a possible alternative thicker pair of socks to those which you would wear route with members and have a contingency plan in in the summer • Wear a face mask or scarf over your mouth to case the route needs to be altered from that which was advertised warm the air you breathe and to protect your face and throat from the cold temperatures • Keep warm clothing in your car for your journey home, be aware that although you may be warm whilst running you will soon cool down, once you are stationary • Be observant of potential hazards such as patches of snow and ice

7a. RISK: Running in the rain

7b. LIKELIHOOD OF AN INCIDENT OCCURRING: Moderate to High

7c.CONSEQUENCES: Possible injury from rain including but not limited to, slipping on ice or mud, potential that rain could result in poorer visibility of both runners and that of other road users which could result in an incident or injury

#### 7d. CONTROL MEASURES TO PUT IN PLACE TO PREVENT AN INCIDENT FROM OCCURRING:

## **Individuals** Coaches • Check Club Members have appropriate clothing • Dress appropriately for the weather conditions, and footwear during pre-run briefing waterproof clothing, appropriate layers etc • Remind Club Members to be wary of slippery • Be aware that other road users such as motorists ground caused by rain, e.g. surface water, mud and may have poorer visibility when driving in the rain, ice to avoid an incident do not stray from the Remind Club Members of the importance of pavement to the road without carefully observing being seen and wearing high visibility outer layers your surroundings first, keep to the left, be extra • Postpone Club Run if rain turns into a cautious when / if looping back thunderstorm and head back to the meeting point • If you have to run on the road, run behind each or a safe place as soon as possible other in a line and stay as close to the verge as possible • Be cautious of other road users - beware of the dangers of blind bends and keep out of the middle of the road Always check for hazards yourself before crossing the road, even if the runner in front of you or the runner running with you, has just checked for hazards, you should always look for yourself as well Whilst running try to make Club Members aware of dangers such as on-coming cars and vehicles Cross the road at designated crossing areas as much as possible When you return home change out of wet clothes as soon as possible and thoroughly dry out your shoes

- 8a. RISK: Club Members getting lost
- 8b. LIKELIHOOD OF AN INCIDENT OCCURRING: Low
- 8c. CONSEQUENCES: Dangers associated with running alone

# 8d. CONTROL MEASURES TO PUT IN PLACE TO PREVENT THIS INCIDENT FROM OCCURRING:

Coaches	Individuals
<ul> <li>Coaches to post detailed instructions of the</li> </ul>	All Club Members to complete an ICE form
scheduled run in advance on HR website, social	before taking part in an activity
media page	All Club Members to ensure they have signed the
